## **ABOUT VISUAL AIDS**

Visual AIDS was founded in 1988 by arts professionals as a response to the effects of AIDS on the arts community and as a way of organizing artists, arts institutions, and arts audiences towards direct action. Visual AIDS is a 501(c)3 arts organization based in New York

## **MISSION**

We utilize contemporary art to promote the message that "AIDS IS NOT OVER" through exhibitions, publications and events, and collaborations with artists, museums, schools, and activist organizations. We provide support for visual artists living with HIV and maintain a visual record of their contributions.

## **PROGRAMS**

The Frank Moore Archive Project, the nation's largest slide library of work by artists living with HIV or deceased from AIDS, is a unique public and educational resource available by appointment to curators, researchers and class tours.

Membership in the Frank Moore Archive is free and open to any professional artist living with HIV and the estates of artists who have died of AIDS. If you are or know of an HIV-positive artist interested in joining, please contact Visual AIDS.

## **ONGOING**

- Guest-curated galleries on view at [VisualAIDS.org](http://VisualAIDS.org)
